

Club Emergency Procedures

Name of club:

Thame Swimming Club

Name of person responsible for session / competition:

Ian Blyth – Head Coach

Details of session / competition:

Swimming training

Facility: (Information to be provided for each facility)

Abbey Sports Centre, Green Furlong, Berinsfield, Oxfordshire, OX10 7NR

Process for accident reporting (NOP):

Minor accidents are reported in the first instance to the coach, an accident book is filled in by the coach and a copy sent to H&S Officer of club. First aid provision is provided by leisure centre Lifeguards. All accident forms are sent to ASA annually by club Secretary for auditing purposes.

As outlined in the facility emergency action plan (EAP) what action should be taken in the event of an emergency?

Non-serious Incidents

For non-serious incidents e.g. nose bleeds, cuts, nausea, cramp etc. the pool may not need to be cleared. Two lifeguards are always available so there would be one to maintain supervision of participants in the pool, and one to deal with the incident, lifeguards will always deal with incidents.

If the non-serious incident then becomes serious then the serious incident process below should be followed. All incidents should be recorded in the accident report book and reported to the club's Health and Safety Officer.

Serious Incidents

Upon observing a serious or potentially serious incident in the water or on the poolside the Teacher/Coach (lifeguard), will affect any necessary rescue or other action according to their training ensuring that 'back-up' is available from other lifeguard(s) or responsible adult(s) at the earliest opportunity.

The pool should be cleared immediately when a serious situation arises to avoid any secondary incidents. The lifeguard on duty will blow the whistle 3 times followed by activating the pool alarm. As a matter of course the emergency services should be called; this can be done from the pool telephone in reception by dialling 999 or directly from a mobile phone. If in doubt the call should be made to avoid any delays in medical treatment.

First Aid & Emergency Aid

First aid kit are located: Poolside near disabled changing room, Reception and in the Gym.

Details of where the emergency contact details of swimmers and volunteers helping in the session are held:

All emergency contact details are held on Swim Manager section of web pages, TSC committee members and head coach have access to master data.
